About IEEE 3SCEA 2026

IEEE 3SCEA 2026, the premier global event explores cutting-edge technologies and innovations that merge smart systems with sustainability. As we face exceptional global challenges in both environmental sustainability and technological advancements, the role of smart systems in shaping the future of engineering applications has never been more critical. IEEE 3SCEA 2026 brings together thought leaders, scientists, engineers, practitioners, researchers, industry professionals, and policymakers to create a collaborative environment that fosters knowledge exchange and innovation, driving the adoption of sustainable solutions in computer science and engineering applications. It aims to accelerate the development and implementation of smart sustainable systems that address the pressing needs of today and future. We invite you to join us at IEEE 3SCEA 2026 and be a part of shaping the future of sustainable engineering and technology through technical paper presentations and distinguished keynote speeches.

Conference Tracks

Track 1: Advances in AI and Machine Learning Technologies for Sustainability
Track 2: Cybersecurity, Digital Privacy and Blockchain for Sustainable Systems
Track 3: Internet of Things (IoT), Edge, Fog and Cloud Computing for Sustainability
Track 4: Autonomous Systems and Robotics for Sustainable Engineering
Track 5: Quantum Computing in Sustainable Engineering and Smart Systems
Track 6: Mathematical and Computational Modeling for Sustainable Complex Systems
Track 7: Smart Applications for Sustainability
Track 8: Technologies for Enhanced and Connected Agriculture (TechAgri)

Submission and Publication Instructions

Accepted papers in the **double-column standard IEEE format** via https://www.ieee.org/conferences/publishing/templates will be included in the conference proceedings published in **IEEE Xplore digital library** covered by **Scopus and EI indexing**. The IEEE 3SCEA 2026 adopts a **double-anonymous review process** for the following types of submissions:

- **Regular Papers**: Novel and mature research work (4000-6000 words, up to 10 pages including references).
- **Short Papers**: Work in progress with some validation results, (2500-3000 words, up to 6 pages including references).
- **Applications/Industrial Papers**: Case studies and tools, (2500-3000 words, up to 8 pages including references).
- **PhD Posters**: doctoral students can showcase their research (up to 2 pages including references).
- **High School and Undergraduate Students Short Papers**: (2500-3000 words, up to 5 pages including references).

Special Sessions co-located with IEEE 3SCEA2026 (Submission deadline: **January 5, 2026**, in conference proceedings)

SS1: Engineering Ethics across Cultures for International Sustainability
Co-Chairs:
Suweon Kim, Hankuk University of Foreign Studies, South Korea
Jeremie Eyssette, Chosun University, South Korea
Gayeong Park, Korea Adv. Institute of Science & Tech., South Korea

SS2: Sustainable Governance and Social Responsibility based on Artificial Intelligence Approaches (SGSR-AI)
Co-Chairs:
Nader Abdelmalek, Cyprien Gilet, Marie-Hélène Abel
University of Technology of Compiègne, France

SS3: Intelligent Technology Enhanced Learning, 4th edition (Intelligent TELA)
Co-Chairs:
Lilia Cheniti Belcadhi, Sousse University, Tunisia
Ghada El Khayat, Alexandria University, Egypt
Bilal Said, Docaposte, Groupe LaPoste, France

SS4: Artificial Intelligence for Secure, Trustworthy & Resilient Autonomy (AISTRA)
Co-Chairs:
Besma Zeddini, Thierry Garcia, Jordy Palafox, Sami Hlioui
CY Tech – CY Cergy Paris Université, France

Registration Fees

Foreigner Participants	Before 15th Feb 2026	After 15th Feb 2026
