

Call for a Faculty Position at the French University in Egypt

The French University in Egypt (UFE) invites applications for faculty positions to be filled effective September 2026. UFE, a leading institution of higher education in Egypt, operates in partnership with prestigious French universities, including, but not limited to, Sorbonne Nouvelle University, Nantes University, Haute-Alsace University, Paris 1 Panthéon-Sorbonne University, CY Cergy Paris University, Gustave Eiffel University, Versailles Saint-Quentin University, le CNAM... Our mission is to deliver academic excellence through a unique blend of Egyptian and French educational traditions.

Position 4: Associate Professor – Energy Efficiency

Ref Code: UFE-SCI-26-002

UFE invites highly qualified and motivated candidates to fill the position of Associate Professor in Energy Efficiency. The successful candidate will contribute to teaching and research in energy efficiency, energy systems, and sustainable energy use, with a focus on the Euro-Mediterranean energy transition.

Responsibilities

- Teach undergraduate and graduate courses in energy efficiency and related areas — including building energy performance, HVAC systems, energy auditing of residential, commercial, and industrial envelops, renewable energy integration, power systems, smart grids, and energy management.
- Develop and update course materials, laboratory experiments, and case studies reflecting current practice in the Euro-Mediterranean energy transition.
- Supervise undergraduate final-year projects, master's theses, and doctoral research.
- Engage in innovative research and publish in peer-reviewed international journals and conferences.
- Contribute to the development and maintenance of laboratory facilities for energy research, including instrumentation for thermal, electrical, and renewable energy measurements.
- Pursue external research funding from French, European (e.g., Horizon Europe, ANR), and Egyptian sources.
- Develop and maintain partnerships with industry, utilities, and government agencies on energy-related projects in Egypt, France, and the broader Mediterranean region.
- Contribute to curriculum development and program accreditation, including the integration of sustainability and energy-transition themes.
- Mentor students in projects, thesis work, entrepreneurship initiatives, hackathons, and competitions related to clean energy and sustainability.
- Participate in research seminars, workshops, community outreach, and university service activities.

Experience / Skills

- Ph.D. in the relevant discipline or a closely related field from a recognized university.
- University teaching experience is required.

- Strong research record with peer-reviewed publications and ongoing research activity.
- Ability to supervise graduate student research projects and theses.
- Experience contributing to curriculum development is an asset.
- Expertise in energy efficiency, renewable energy, power systems, building energy performance, or energy policy.
- Industry experience in the energy sector is an asset.
- **Fluency in English is required.** Good command of French is a great asset.
- **A good understanding of the French higher education system and ideally experience with collaborations in this field with France, would be a significant asset.**
- Excellent interpersonal, communication, and teamwork skills.
- Ability to work collaboratively with colleagues from diverse cultural and academic backgrounds.

Application Instructions

Interested applicants are invited to submit a curriculum vitae that includes: employment history, a statement of research and teaching interests aligned with UFE's Franco-Egyptian mission, a list of publications, the names of at least three referees, and a letter of motivation.

Academic rank is assigned based on the highest degree earned, teaching experience, research output, and years of relevant experience.

Applications will be reviewed until the position is filled. For best consideration, applications should be submitted by **July 3rd, 2026**
